CryptoWire Partners Google Cloud

written by [Max Clark](#) January 6, 2022

Partnership

TickerPlant has collaborated with Google Cloud to develop the CryptoWire ecosystem that will cater to all stakeholders of cryptocurrency and blockchain industry on a common platform. As an exchange-neutral global platform, CryptoWire is informed by enthusiasts and professionals by simplifying digital asset classes, [blockchain](#) technology and its industrial applications, and providing deep insights and cutting-edge knowledge. We aim to be able to make business decisions.

TickerPlant will faucet Google Cloud's scalable, dependable, and high-performance knowledge administration infrastructure to construct and develop CryptoWire's purposes, in addition to leverage its progressive networking capabilities for video streaming, content material supply, good enterprise execution, and alternative convergence.

Last month, international monetary content material supplier TickerPlant unveiled its personal cryptocurrency tremendous utility, which is meant to be a single vacation spot for cryptocurrency fans to get details about real-time costs, the most recent information, knowledge, and charts. It will even present programs associated to cryptocurrencies. The tremendous app is offered for each Android and iOS units and has an internet browser platform too.

Quotes

[TickerPlant](#) Managing Director and CEO Jigish Sonagara commented on the partnership: “The sheer pace at which crypto and blockchain markets have moved clearly meant that we needed a technology partner which can help us scale in real-time. Working with Google Cloud, we can provide access to people across the world with well-crafted information with speed and precision in a rapidly changing environment and ensure a meaningful approach to address the information lacuna.”

Google Cloud India Managing Director Bikram Bedi also noted: “We are excited to provide the secure and scalable cloud infrastructure to innovative businesses like TickerPlant as it accelerates and scales access to blockchain and cryptocurrency information with CryptoWire, and to supporting them as they develop new products and offerings to create value for customers and users.”
