New Delhi/IBNS: TickerPlant, a subsidiary of 63 moons technologies limited, on Thursday announced its collaboration with Google Cloud for the development of the CryptoWire ecosystem, catering to all stakeholders of the crypto and blockchain industry on a common platform.

As an exchange neutral global platform, CryptoWire looks to simplify the digital asset class, blockchain technology, its industrial application and empower professionals to make informed business decisions by offering necessary insights, a senior company official said.

Jigish Sonagara, MD and CEO at TickerPlant, said: “The sheer pace at which crypto and blockchain markets have moved clearly meant that we needed a technology partner which can help us scale in real-time.

“Working with Google Cloud, we can provide access to people across the world with well-crafted information with speed and precision in a rapidly changing environment and ensure a meaningful approach to address the information lacuna.”

TickerPlant will tap Google Cloud’s data management infrastructure to build and expand CryptoWire’s

applications, as well as leverage its networking capabilities for video streaming, content delivery, and opportunity convergence.

Google Cloud's advanced solutions including smart data analytics, machine learning (ML), and artificial intelligence (AI) will shore up CryptoWire's customer experience.

Google Cloud India's Managing Director Bikram Bedi said: "We are excited to provide the secure and scalable cloud infrastructure to innovative businesses like TickerPlant as it accelerates and scales access to blockchain and cryptocurrency information with CryptoWire."

CryptoWire's knowledge portals, CryptoTV, and Crypto University will provide knowledge-intensive intervention in the crypto asset and blockchain ecosystem to enable operations and convergence of all applications for participants to make informed investment decisions and boost industry usage of the blockchain.

TickerPlant's COO Rushabh Shah said, "The convergence of Google's Cloud network with CryptoWire, CryptoTV and Crypto University has created a new multi-faceted global growth frontier to be fully utilized by economies, industries, stakeholders, new generation entrepreneurs, and professionals."

Earlier this week, CryptoWire, a global crypto super app, launched India's first index of Cryptocurrencies - IC15 to provide knowledge on the crypto and blockchain ecosystem.
