Google Cloud partners with CryptoWire to develop blockchain, Crypto ecosystem

New Delhi, January 6th: 63 moons Technologies Limited's subsidiary, Ticker Plant, today announced a collaboration with Google Cloud to develop a CryptoWire ecosystem for all stakeholders in the crypto and blockchain industry on a common platform.

As an exchange-neutral global platform, CryptoWire is informed by enthusiasts and professionals by simplifying digital asset classes, blockchain technology and its industrial applications, and providing deep insights and cutting-edge knowledge. We aim to be able to make business decisions.

CryptoTV and CryptoUniversity, CryptoWire's state-of-the-art knowledge portals, provide technology and knowledge-intensive global intervention in crypto assets and blockchain ecosystems, allowing participants to make informed investment decisions in the industry. Allows seamless operation and convergence of all applications to enable the use of blockchain. **[Bitcoin crisis in 2022: From cryptocurrency crashes to regulatory crackdowns, analysts urge investors to withdraw.](#)**

Jigish Sonagara, Managing Director and CEO of TickerPlant, said of the partnership with Google Cloud: With the cloud, you can quickly and accurately deliver well-crafted information to people around the world in a rapidly changing environment, ensuring a meaningful approach to addressing information shortages. “

TickerPlant leverages Google Cloud's scalable, reliable, and high-performance data management infrastructure to build and extend CryptoWire applications for video streaming, content delivery, smart

business execution, and opportunity convergence. Take advantage of the innovative networking features of.

Bikram Bedi, Managing Director of Google Cloud India, said: A service that creates value for customers and users. “

In addition, Mumbai-based CryptoWire explores Google Cloud’s advanced solutions such as smart data analytics, machine learning, and artificial intelligence to deliver a great customer experience.

Rushabh Shah, COO of TickerPlant, said: “The integration of Google’s cloud network with CryptoWire, CryptoTV and Crypto University will bring full advantage to the economy, industry, stakeholders, new generations of entrepreneurs and professionals. The Global Growth Frontier was born. “

This Monday, TickerPlant’s special business unit, Global Cryptocurrency SuperAppli CryptoWire, launched IC15, India’s first cryptocurrency index, to strengthen its knowledge of cryptocurrencies and the blockchain ecosystem. raised. **[India’s first cryptocurrency index launched by IC15, CryptoWire. Here is everything you need to know.](#)**

IC15 is a market capitalization rule-based broad market index that tracks and measures the performance of the top 15 widely traded liquid cryptocurrencies listed on the world’s major crypto exchanges. In particular, Bitcoin, Ethereum, XRP, Bitcoin Cash, Cardano, Litecoin, Binancecoin, Chainlink, Polkadot, Uniswap, Dogecoin, Solana, Terra, Avalanche and Sheainu are the components of IC15.

Last month, global financial content provider TickerPlant announced its own cryptocurrency super application. It aims to be a single destination for crypto enthusiasts to get information about real-time prices, the latest news, data and charts. It even offers courses related to cryptocurrencies. The SuperAppli is available on both Android and iOS devices and also has a web browser platform.
